

WE ARE PROUD OF

TRANSMISSION SYSTEM EXPANSION AFTER INCEPTION OF COMPANY

After formation of Company in July 2002, the Company took up the challenge of expansion of transmission system and ensured commissioning of substantial EHV substations and transmission line sup to March 2017

Sr. No	Description	System as Existing on 1/7/2002	Addition in Transmission System during July 1992 to June 2002 (Preceding ten years period)	Addition in transmission system after Company formation i.e. July 2002 to March 2017	Total Transmission System as on March 2017
1	Construction of New 400 kv Substations	4	Nil	5	9
2	Construction of new 220kV substations	26	10	45	71
3	Construction of new 132kV Substations	110	23	140	250
4	Construction of 400kV, 220kV & 132kV transmission lines (CKT KM)	17493	2972	14876.40	32369.39
5	Transformation capacity in EHV substations (MVA)	16680	5478	36736.0	53416.0

IMPROVEMENT ACHIEVED IN TRANSMISSION PERFORMANCE PARAMETERS DUE TO EXPANSION OF TRANSMISSION SYSTEM DURING JULY 2002 TO MARCH 2017.

Sr.No	System Parameter	Position as in July 2002	Improved position as on March 2017
1	Transmission loss	7.93%	2.71%
2	Transmission System Availabilty	95.00 %	98.39 %

RECOGNITIONS

CBIP Award 2018 :- Recently our company has been awarded the CBIP Award 2018, on 3rd January 2018 by Central Board of Irrigation & Power (CBIP), New Delhi for Best Performing Power Transmission Utility.
